Kirjeldus

Everything you need in terms of storage space and speed. In a double pack. The ultimate 2-in-1 solution for transferring and storing your data: the Memory Drive Bonus Pack combines a powerful external hard drive with a practical USB stick. Using a USB 3.2 Gen 1×1 connection, the 2.5" Memory Drive external hard drive transfers data up to ten times faster than conventional USB 2.0 devices. Impressive storage space of up to 2 TB is available to you. You can use the 32 GB USB stick for smaller amounts of data on the go, and choose the 64 GB version for larger amounts of data. This is the perfect combination of power and portability.
